Condensate Drain Cleaner

Totally safe, easy to use, biocidal condensate drain cleaner.

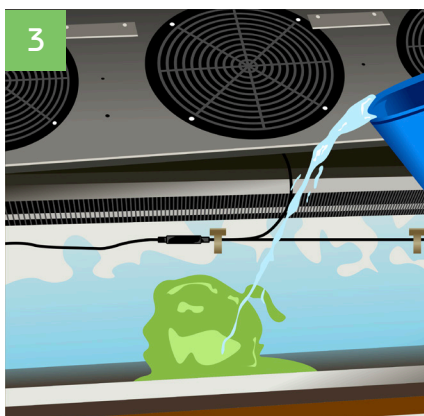

Non-hazardous, kills biofilm forming bacteria.

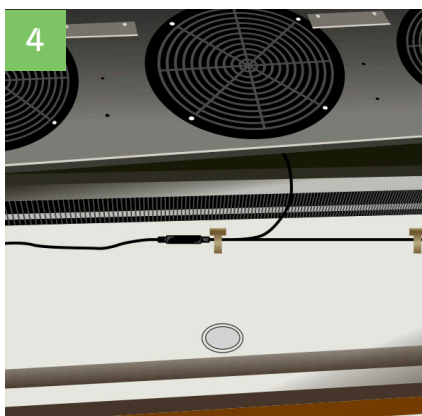

1
Shake bag well before opening, pour directly into the drain trap of the blocked or slow moving drain.

2
Allow foaming action to take effect, it is normal for green foam to bubble out of the drain.

3
Slowly add hot water until foaming stops, (20 seconds) then rinse drain with hot water.

4
Rinse drain pan and drain thoroughly with clean water to wash debris from drain.
(For stubborn blockages, use plunger or wet vac.)
