Where do I put the tablet?

Cabinets are different.

Luckily, the tablet suits all cabinets.

It can go anywhere in the pan.

Coating all surfaces as it dissolves.

Biofilm is a problem in the drains.

One tablet

One cabinet

6 months protection

Gel-clear tablets will sometimes dissolve completely, this is normal, they work by coating the drains in a long lasting antimicrobial shield.

If some tablet remains after six months, it does not need to be removed, clean the cabinet as usual, and replace with a new tablet.

Technical data sheet QP24

Gel-clear tablets dissolve in the condensate waste water, coating the drains in an antimicrobial protective layer preventing Biofilm formation along the whole dispersive route in any drainage system

Name	Gel-clear
Product Code	QP24
Packing Qty	14 tablet tube
Tablet appearance	Orange Solid Disc

SPECIAL FEATURES

- 6 months protection
- NSF approved
- Pump safe
- Non-corrosive to metals
- 100% biodegradable
- No ecological toxicity

DESCRIPTION

Gel-clear tablets prevent the formation of biofilms in HVACR drainage systems. Suitable for every type of drainage configuration, Gel-clear tablets reduce breakdowns, and improve drainage efficiency. Using a unique, proprietary coating method, Gel-clear tablets outlast conventional condensate treatments.

Gel-clear QP24 tablets are safe & simple to use. Placed in the drain pan, they slowly dissolve, coating all the drains in the 'Gel-clear' antimicrobial shield. Gel-clear tablets are 100% water soluble, suitable for all types of condensate pumps, giving protection to the pump and discharge line, from the effects of biofilm.

DIRECTIONS

For HVAC professional use only.

Place the tablet away from the drain outlet, anywhere between the coil and the drain outlet. It is important only that the tablet comes into contact with the moving water. The tablet will completely dissolve, coating all the drains. The tablet does not have to remain visible, the coating protects the drains, preventing microbial attachment.

ANGER

Contains: Quaternary ammonium compounds, C12-14-alkyl(ethoxyphenyl)methyl dimethyl chlorides; Quaternary ammonium compounds, benzo-C12-18-alkyldimethyl chlorides. H302 - Harmful if swallowed H315 - Causes skin irritation H318 - Causes serious eye damage, P280 - Wear eye protection, face protection, protective gloves, P301+P312 - IF SWALLOWED: Call a POISON CENTRE or doctor if you feel unwell, P302+P352 - IF ON SKIN: Wash with plenty of soap and water, P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do, Continue rinsing, P310 - Immediately call a POISON CENTRE or doctor, P362+P364 - Take off contaminated clothing and wash it before reuse, P501 - Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation.
