## Technical Data Sheet CPH17 Header Drain Connector

- Quick release connector prevents hose kink
- Integral air admittance valve
- Fits industry standard solvent weld fittings
- Prevents odours & water leaks
- Robust ABS plastic construction
- U.K. Manufactured

Barb fits 1/2 inch discharge hose.  
Connector fits industry standard 40mm solvent weld pipe

Designed for condensate pump discharge hose connections in the food retail cold chain, the CPH17 connector brings a water-tight seal to header drain connections stopping odour venting, backwash leaks and negative pressure in header drains. The connector prevents discharge hose pipes kinking with a 360 degree rotating hose barb, with quick release fitting.
