HVAC coil & pan sanitising cleaner concentrate

Air-clear

CONCENTRATED

NON HAZARDOUS

80:1

Makes 20 litres

Isolate the unit before cleaning.

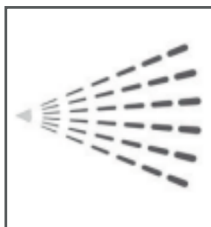

Spray Air-clear into the coil & around the pan.

Wash around the coil & pan removing all debris.

Prevent debris from entering the drains.

Spray again around coil & pan.

Allow to dry naturally.

Air-clear breaks down the biofilms that allow bacteria to survive. Biofilms that develop in HVAC units reduce coil efficiency, increase metal corrosion, and secrete drain blocking slimes. Cleaning with Air-clear will deliver a long lasting coating on the coil and pan to prevent and control biofilms.

Effective to BS EN1276 & EN1650 standards. NSF Registered for food preparation areas.

Nonfood pounds

User Guide QR Code

Air-clear concentrate is a non-hazardous concentrate requiring no COSHH / REACH controls for transport as storage.

Non-corrosive, safe on all metals, aluminium, and copper. Safe on all surfaces.
